1. [REDACTED] and I presented a formal request to Mr. Kirkpatrick for an additional [REDACTED] for FY 1964. We made a strong pitch for money primarily for audio and counteraudio and certain ELINT activities. What success we will have is yet to be determined since Mr. Kirkpatrick did not commit himself except to look around.

2. Attached is a memorandum for record by [REDACTED] and a copy of the charts used in the briefing; also we have a copy of the official request to the DDCI.

3. I'll continue to push on this as long as I am here, but maybe you should put your shoulder behind this and see if you can force some money out of the Committee. I offered to go to the reserve for it but they seemed reluctant in this scope.
